

Global Aid Network, (GAiN), exists to demonstrate the love of God—through word and deed— to hurting and needy people around the world through relief and development projects. What ever the need, be it food, shelter, medical supplies or development assistance, GAiN innovatively links individuals and groups worldwide, sourcing critical commodities and mobilizing people for an effective response.

GAiN helps to eliminate the duplication of services amongst aid organizations by cooperating and working together with like-minded agencies. We believe in the unity of strengths and resources of each partnering agency into a single, efficient, global efforts.
